

# CODIE GROTH

## FULL STACK DEVELOPER

Macomb, MI | 586.864.3218 | [CodieGroth@gmail.com](mailto:CodieGroth@gmail.com) | [codiegroth.com](http://codiegroth.com) | [github.com/codiemaureen](https://github.com/codiemaureen) | [linkedin.com/in/codiemaureen](https://linkedin.com/in/codiemaureen)

### SUMMARY

Full Stack Software Engineer with 2+ years of experience building scalable web applications using React, Next.js, and Node.js. Proven ability to deliver production-ready solutions, work directly with clients, and translate business needs into technical outcomes. Strong focus on performance, maintainability, user experience, and real-world impact.

### TECHNICAL SKILLS

React, Next.js, TypeScript, JavaScript, Node.js, MongoDB, REST APIs, Docker, Azure, HTML, CSS, SCSS, Web Accessibility

### EXPERIENCE

#### Freelance Web Developer — Codie Codes | Jun 2024 - Present

- Designed and developed 2+ production websites for small businesses, including Cedar Lake Carpentry and Ideal Mobile Detailing.
- Built responsive applications using React and Next.js, improving usability across desktop and mobile devices.
- Translated client requirements into scalable solutions, reducing revision cycles and improving delivery speed.
- Implemented performance optimizations, contributing to faster load times and improved user experience.
- Designed conversion-focused layouts that increased customer inquiry potential.
- Deployed applications via Vercel and Netlify with consistent uptime and smooth releases.

#### Software Engineer — Par-Tech (Acquired by Isuzu) | Apr 2022 - Jun 2024

- Contributed to a React-based telematics platform with scalable, reusable components.
- Built REST APIs and supported full-stack feature development across Angular and React applications.
- Improved data processing and error handling for client vehicle data systems.
- Collaborated with cross-functional teams and participated in agile development cycles.

#### Data Entry Clerk — Golden Dental Plans | Jun 2018 - Dec 2021

- Maintained 2,000+ accurate daily data entries while handling sensitive patient information.
- Improved document organization and digitization processes.

### PROJECTS

#### Cedar Lake Carpentry Website — Next.js, Vercel |

- Developed a premium website targeting luxury builders with strong branding and UX.
- Optimized layout and contact flow to support lead generation.
- Delivered fast load performance through modern frontend architecture.

#### Ideal Mobile Detailing Website — React / Next.js |

- Built a mobile-first business website improving usability for customers booking services.
- Streamlined service presentation and contact flow to reduce friction in inquiries.
